Code of Ethics for Research

Following are the code of ethics enlisted for research scholars in the research center. The Researcher is expected to maintain code of ethics and decorum.

1. Research scholar should be competent to conduct research.
2. Research scholar should be unbiased and maintain objectivity in research.
3. Research scholar should maintain accuracy of research data and reports.
4. Research scholar acknowledge sources of data, information or other contribution to the research.
5. Research scholar should not plagiarize i.e. he/she should not present portions of another's report or data as their own.
6. Research scholar should cite clearly all sources of information and data that we use which are not the results of our own research.
7. Research scholar should give proper acknowledgement and credit to resource/funding sources of our research.
8. Research integrity requires not only that reported conclusions are based on accurately recorded data or observations but all relevant observations even if contradictory to the conclusions must be reported.

Note: - Copies are to be distributed to research scholars and acknowledgement to be received.
